

Plaster table

Short description of the product

Thanks to its double articulation and to its low and wide frame, this plaster table is very sturdy. Utilised together with the optional stand, this plaster table finds its place in every plaster room.

The dorsal part and the legs can be individually adjusted in every position thanks to the gas actuators. The leg parts are adjustable separately till a down angle of 90°.

The table is adjustable in height thanks to an electrical actuator with foot or hand control.

The table is always equipped with castors and with a central locking which allows the castors to brake simultaneously.

Specifications of the product

- Length: 215 cm with monkey pole, working 185 cm.
- Width: 60 cm, 70 cm optional
- Weight of the table: 90 kg (variations according to the equipment)
- Security maximal weight: 200 kg (patient's weight : 175 kg)
- Adjustable height: 65 – 115 cm, at a speed of 7.5 mm/s, power : 470 W
- Capacity: 175 kg
- Back rest tilting: from 0° to 85°
- Legs tilting angle: from + 45° to – 90°
- Castor rolls diameter: 75 mm
- Thickness of cushioning: + or – 55 mm
- Cushioning material: Polyether SG 90/30
- Seat cover material: standard artificial leather, Fresh or as additional option: Purefect.
- The frame is Epoxy paint covered
- Low maintenance on articulations and moving parts
- All the feet are levelling to assure stability on uneven grounds
- European production.
- 2 years warranty excepted on upholstery.
